Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Tuesday 21 Dec 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Rain spreading into many areas on Wednesday.

This Evening and Tonight:
Cloudy for many areas at first this evening, but clear skies spreading northwards into many regions later this evening and overnight. Colder than last night with widespread frost.

Wednesday:
Fine and dry for many areas at first. Cloud and rain soon developing in the west though and then then spreading eastwards, rain turning to snow over hills in Scotland.

Outlook for Thursday to Saturday:
Mild with rain for many Thursday, then on Friday and Saturday (Christmas), colder air starts to push south, with some sleet/snow falling to lower levels in the north. Cold wind.
